**BRONZE**

**MDC- KELLEN BAKER**

September/October 2023

NDSU's Interior Design Program recently participated in a site review for CIDA Accreditation, which included this wonderful showcase of student work

# Why should programs become CIDA accredited?

We believe that accreditation is imperative for interior designers to be sought after professionals.

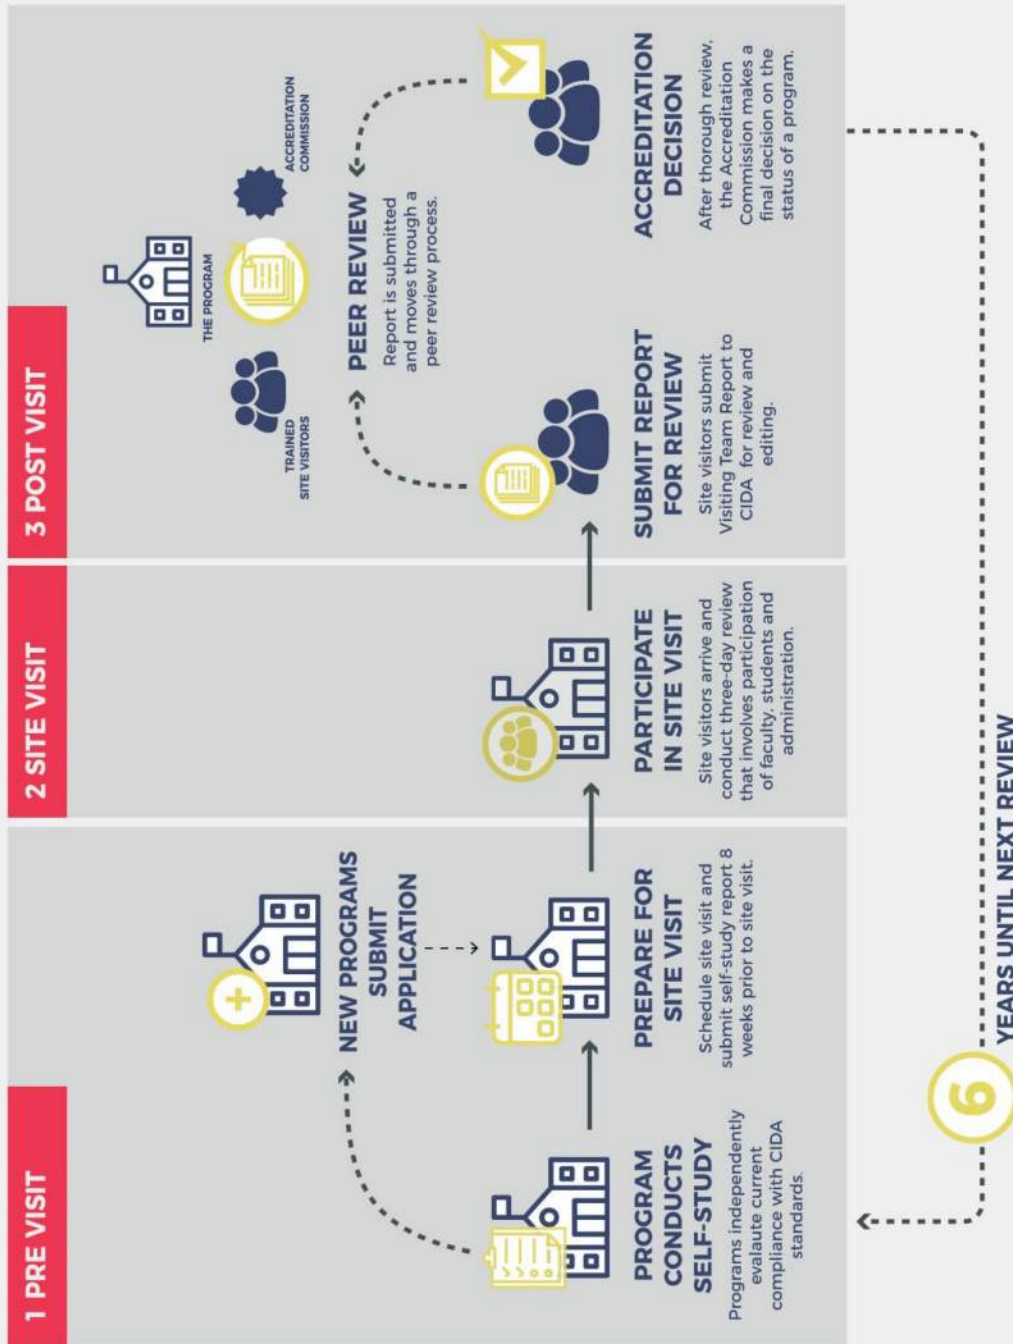

CIDA is the only accrediting body specifically focused on interior design and is recognized by the Council for Higher Education Accreditation for professional-level interior design programs that culminate in a bachelor's or master's degree.

Over 18,000 students in 180+ CIDA-accredited interior design programs worldwide benefit from CIDA standards and quality assurance.

CIDA-accredited program graduates hold many successful positions in both education and practice and score an average of 16% higher on the NCIDQ Exam than non-CIDA graduates.

For more information on the CIDA Accreditation process, check out our website:

[accredit-id.org/faculty-programs/accreditation-process/](https://www.cida-acc.org/faculty-programs/accreditation-process/)

## Celebrating 30 Years

Christiansons by Fluid celebrated 30 years in business with a ribbon cutting ceremony and lunch attended by the Fargo Chamber of Commerce, members of the Haworth team, customers and local designers. As Christiansons was recently acquired by Fluid Interiors, a Minneapolis-based interior solutions company, the event was also an opportunity to introduce Fluid to the Fargo market and the exciting new innovations and services their partnership will bring. Fluid provides design, install and facility services for office and social spaces to over 300 customers a year across the Upper Midwest and nationally, including multiple Fortune 500 companies.

Christiansons by Fluid would like to thank NDID designers for their continued partnership over the last 30 years, and looks forward to continue building these relationships in the future.

# new faces!

## Kayla Keenan Architectural Manager

What were you doing prior to joining Schluter Systems?

I have spent the last 15 years in the natural stone industry in various different roles from sales, project management and management.

What makes you most excited about working here?

Schluter Systems fosters a culture of excellence and continuous learning. The company's commitment to ongoing professional development and training is impressive. I am excited for the new challenge and opportunity to be part of the Schluter Team!

What would we find you doing when you are not at work?

I love to spend time with my family and friends. In the summer I enjoy the MN summer weather and spending time on the lake. I also enjoy hiking, going to concerts and traveling.

Do you have a favorite quote you would like to share with us?

"In the end, we only regret the chances we didn't take."

### Contact Information

Kayla Keenan brings over 15 years of natural stone expertise to the Schluter Systems team, having held diverse roles across drafting, sales, and project management. Her professional journey has taken her from the East Coast to the Midwest, but her heart and home are in Minnesota, where she was born and raised. As an expert in the field, Kayla values the strong relationships she builds with her customers and is excited to establish new partnerships with the Schluter Systems family. Her passion for working on local construction projects ensures that she is fully invested in each undertaking, guaranteeing an exceptional experience for every client.
